C323 Final Project Team/Student Contract

Students: Casey Hakami (cdhakami@iu.edu), Jarret Rockwell (jarrrock@iu.edu)
Team: 1 (Gamboge)
App Name: MyPlanner
A03 Submission Date: 04/22/2025, 7:00 PM

Timeline:

- **April 22**: all views complete (including Schedule view, ToDo view, and Edit view), main functionality complete (adding events and/or tasks), and stub code complete. (Container View Controller) TabBar controller implemented. UML diagrams updated & finalized.
- **April 29**: basic implementation of all app features aside from frameworks, all features present and functioning, but not finalized.
- **May 06**: finalized implementations of all features, frameworks added (From class: Core Location, User Notification; Not from class: WidgetKit)

Changes:

- UML diagram updates, User Notification & Core Location implementation changes.

Rubric:

- **A03**: Grading should consider completed views, container view controller, and one main feature implementation.
- **A04**: Grading should consider initial implementation of all app's features, including adding/editing/deleting events & tasks, viewing schedules for current and future days, viewing tasks based on date priority.
- **Final Project:** Grading should consider all aspects of the project, now including frameworks that implement location & time based notifications, widgets, and finalized code.

Statement:

Our team (Casey Hakami & Jarret Rockwell) has read and accepted the IU Code of Student Rights, Responsibilities & Conduct. We agree to "Uphold and maintain academic and professional honesty and integrity", as well as all other C323 coursework policy rules. All Swift code, UI elements, README files, etc. will be our own original work.
